# Introduction

The East European Accessions List is a monthly record of monographic publications issued after 1944 and periodical publications issued after 1950 which are currently received by the Library of Congress and, as indicated, by other American libraries. Imprints of the following countries as well as publications issued elsewhere in the languages of these countries are included:

Albania	Estonia	Poland		
Bulgaria	Hungary	Rumania		
Czechoslovakia	Latvin	Yugoslavia		
	Láthuania			

Monographic and periodical publications are arranged by country and grouped under 17 general subjects with monographs and periodicals separately alphabetized under each subject. Monographs in series and annual publications are treated as monographs and are included in the list of monographs. Each monograph is listed in the original language or in transliteration—in accordance with the Library of Congress practice—followed by a translation of the title. Each periodical is listed in the original language or in transliteration followed by a descriptive annotation in English including, as available, the name of the issuing body, language statement, frequency of publication, and history note. Periodical receipts are recorded by volume, number, and date. A listing of the contents (in English) is provided for selected periodicals in accordance with their importance and the availability of staff. Unless otherwise indicated, all listed items are represented in the collections of the Library of Congress. Identifying symbols indicate the items available in other libraries. Periodical issues credited to the National Library of Medicine (DNLM) are indexed in its Gurrent List of Medical Literature.

A subject index to monographs and periodical contents, with a list of periodical title abbreviations used therein, is provided.

Cumulative lists of East European periodical and newspaper titles received by the Library of Congress and other American libraries are included with the December issue of each volume. The list of periodical titles is maintained by a monthly supplement of newly reported titles, with the supplements appearing during the first half of the year cumulated in the June issue of each volume. Symbols for libraries known to have current files of the periodicals and newspapers follow each title.

Certain forms of material from the East European area, such as textbooks below the university level, juvenilia, and less important pamphlets, are not fully cataloged by the Library of Congress nor are they included in the *List*; however they are cataloged by the Library in groups arranged by subject and are available for reference use.

The East European Accessions List is for sale by the Superintendent of Documents, U. S. Government Printing Office, Washington 25, D. C.

Price of single copies varies; subscription price, \$8.00 a year domestic, \$10.00 a year foreign.

# EAST EUROPEAN ACCESSIONS LIST

Vol. 6, No. 6

June 1957

THE LIBRARY OF CONGRESS

WASHINGTON: 1957

## Introduction

The East European Accessions List is a monthly record of monographic publications issued after 1944 and periodical publications issued after 1950 which are currently received by the Library of Congress and, as indicated, by other American libraries. Imprints of the following countries as well as publications issued elsewhere in the languages of these countries are included:

Albania	Estonia	Poland			
Bulgaria	Hungary	Rumania			
Czechoslovakia	Latvia	Yugoslavii			
	Lithuania				

Monographic and periodical publications are arranged by country and grouped under 17 general subjects with monographs and periodicals separately alphabetized under each subject. Monographs in series and annual publications are treated as monographs and are included in the list of monographs. Each monograph is listed in the original language or in transliteration in accordance with the Library of Congress practice—followed by a translation of the title. Each periodical is listed in the original language or in transliteration followed by a descriptive aumotation in English including, as available, the name of the issuing body, language statement, frequency of publication, and history note. Periodical receipts are recorded by volume, number, and date. A listing of the contents (in English) is provided for selected periodicals in accordance with their importance and the availability of staff. Unless otherwise indicated, all listed items are represented in the collections of the Library of Congress. Identifying symbols indicate the items available in other libraries. Periodical issues credited to the National Library of Medicine (DNLM) are indexed in its Current List of Medical Literature.

A subject index to monographs and periodical contents, with a list of periodical title abbar viations used therein, is provided.

Cumulative lists of East European periodical and newspaper titles received by the Library of Congress and other American libraries are included with the December issue of each volume. The list of periodical titles is maintained by a monthly supplement of newly reported titles, with the supplements appearing during the first half of the year cumulated in the June issue of each volume. Symbols for libraries known to have current files of the periodicals and newspapers follow each title.

Certain forms of material from the East European area, such as textbooks below the university level, juvenilia, and less important pamphlets, are not fully cataloged by the Library of Congress nor are they included in the List; however they are cataloged by the Library in groups arranged by subject and are available for reference use.

The East European Accessions List is for sale by the Superintendent of Documents, U. S. Government Printing Office, Washington 25, D. C.

Price of single copies varies; subscription price, \$8.00 a year domestic, \$10.00 a year foreign.

ELECTRIC APPARATUS AND APPLIANCES
800 subdivision under HUNGARY.

ELECTRIC ARC
Calculations of the electric arc and the given and definitions of those discharges. A. Barra tech obz 45 no. 8:301-304 Ag 56. C. 18

#### ELECTRIC ARC (Continued)

The cutting of nonferrous metals by means of the electric arc in a protected atmosphere. Tech praca 8 no. 8:345 Ag\*56. C, 16.

#### ELECTRIC BATTERIES

Control equipment for the batteries of low and high-voltage condensers. V. Urban. Energetika Cz 6 no. 6:[Suppl.]44-49 Je'56. C, 16.

Sources of heating current for vacuum tubes. J. Kubes. Sdel tech 4 no. 7:204 Jl'56. C, 16.

ELECTRIC CABLES
see also subdivision under CZECHOSLOVAKIA.

Aluminum-sheathed cables. Marsal. El tech obz 45 no. 8:435-437 Ag'56. C, 16.

Designs for supervoltage cables. M. Marsal. El tech obz 46 no. 2:61-59 F'57. C, 16.

A device for electric winding of the interior axie of a flexible cable. E. Dumitrescu. Tehnica nous 3 no.57:4-5 Jl'56. R, 16.

Timely problems of high and low voltage cables; also, remarks by L. Kovacs and others, F. Palos, Villa-mossag 4 no. 3:68-74 Mr'56, H,16.

#### ELECTRIC CIRCUIT BREAKERS

A new method of measuring the residual current in circuit breakers for high and very high voltage. V. Husa, J. Chelka, El tech obz 45 no. 10:510-514 0'66. C, 16.

A new Westinghouse anode circuit breaker. Tr. from the English, Also, comments of reviewers. V. Ta-imr, J. Kamenicky. El tech obz 45 no. 10:520-530 O'56. C, 16.

#### ELECTRIC CIRCUITS

About the reduction of the number of contacts in intro-ducing bridge circuits; direct conjugate conductivi-ties. P. Constantinescu. Studii core mat 7 no. 3/4: 393-410 JI/D'56. R, 13.

Mathematical problems on the theory of electrical cir-cuits; a report on the lecture delivered by Vaclav Dolezal before the Prague Circle of Mathematicians on April 16, 1956. V. Dolezal. Cas pro pest mat 81 no. 4:475-478 N'68. C, 13.

## ELECTRIC COILS

Design of winding for a superheterodyne receiver tuned with tron-core coils. J. Holownia. Przetelekom 3a (t. c. 20) no. 0; 184-191 Je 56. P., 16.

Improved mechanization of coll winding in electro-technical production. J. Vrdlovec. Tech praca 8 no. 8:355-358 Ag'56. C, 16.

Inductivity of a long flat coil with rectangular profile.

Tr. from the German, V. Chura, El tech obz 46 no. 10:521-522 O'56, C, 16.

# ELECTRIC CONDUCTIVITY

About the reduction of the number of contacts in intro-ducing bridge circuits; direct conjugate conductivi-ties. P. Constantinescu. Studii carc mat 7 no. 3/4; 399-419 Jl/D'56. R, 13.

Raising the electric conductivity of commercial alu-R.Pelzl. Hut listy 11 no.8:477-480 Ag'56. C, 16.

### ELECTRIC CONDUCTORS

Transient skin effect. In English. A. Avramescu. Rev electrotechn energet 1 no. 1:75-88 '56. R, 16.

## ELECTRIC CONTROLLERS

Control equipment for the batteries of low and high-voltage condensers. V. Urban. Energetika Cz 6 no. 6:[Suppl. ]44-49 Je¹56. C, 10.

WOR "idle-output" regulators for automatic compension by static condensers. V. Klatovsky. Elektrotechnik 12 no. 3:90-91 Mr'67. C, 16.

### ELECTRIC CURRENT RECTIFIERS

Czechoslovak "pencil-type" rectifiers. F. Hajek, J. Cerny, Elektrotechnik 12 no. 3:91-93 Mr'57,

C, 10.

Germanium and silicon rectifiers of the P-N type with great output. A, Klimek. El tech obz 45 no. 10: 526-529 0'56. C, 18.

A germanium rectifier. M.R. Radioamator Fol 6 no. 8:7-9 Ag'56. P, 16.

### ELECTRIC CURRENTS

A few contributions to the development of electrical engineering in the field of high-voltage currents from the beginning of this century. Tr. from the French. J. Kucera. El tech obz 46 no. 2:99-101 F\*57. C, 16.

Modern sources of high-voltage direct current for electric measuring instruments. I. Miskovsky. Sdel tech 4 no. 7:212-213 Jl 56. C, 16.

A new method of measuring the residual current in circuit breakers for high and very high voltage.
V. Husa, J. Cihelka. El tech obz 45 no. 10:510-514
O'56. C, 16.

#### ELECTRIC CURRENTS - GROUNDING

Grounding of hydraulic-power plants. M. Zapletal, El tech obz 45 no. 10:514-518 O'56, C, 16,

#### ELECTRIC DISCHARGES

Calculations of the electric arc and the glow discharge and definitions of these discharges. A. Blaha. El tech obz 45 no. 8:391-394 Ag 56. C, 16.

#### ELECTRIC EQUIPMENT
